

# WIN-PAK® 4.7 SE

Honeywell's WIN-PAK 4.7 software solution provides a cost-effective way to integrate and manage access control, video surveillance, and intrusion detection through a single interface.

## Overview

Feedback

Honeywell's WIN-PAK 4.7 software solution provides a cost-effective way to integrate and manage access control, video surveillance, and intrusion detection through a single interface. WINPAK 4.7 provides an intuitive browser-based interface allowing users to perform common access control actions from virtually anywhere. WIN-PAK 4.7 can be easily scaled from a single site up to a multi-region, enterprise level solution without placing restrictions on the number of users or sites being managed. WIN-PAK 4.7 supports third party integrations such as HID's Mobile Access®, BioConnect® Suprema® and Morpho biometrics, point of-sale systems, visitor management, and HR applications. Using WIN-PAK's API your software developers can create custom integrations to meet your integration needs.

### Features & Benefits:

- Integrated access, video and intrusion systems through one interface.
- Direct management of biometrics using HON-FIN4000 controller/reader.
- Provision mobile credentials through WIN-PAK.
- Visual video verification pop-ups with stored images to confirm cardholders.
